Why shouldn't children enjoy the same comfort and durability in the seating and tables they use for their work, be it coloring or painting or gluing, as adults do?

Well they can with Group Four's children's furniture in three different chair models – the 0802 Nevada, the 1102 George and the 1500 Tom. All are available in two different seat heights to suit the different size ranges of growing children – the 12" seat is suitable for the average 6-year old so can be used by toddlers through age nine; the 15" seat height suits the average 12-year old so can be used from nine years of age to mid-teens.
