PUBLIC  
WAITING

**GROUP FOUR**  
FURNITURE

# INSTALLATIONS

*Group Four's tubular steel public area seating is perfectly suited to the high-traffic conditions in hospital, courthouse, transportation and educational facilities.*

*The beam mounted 0400 with separate seat and back, 0500 Tom with rigid urethane shell and 0700 Perf-on-a-beam can stretch to the length of any application, thanks to an internal joining sleeve that also allows the beams to join with tables at any angle.*

*Lounges can be furnished with individual seating or linked (continuous) units, and chairs can be ganged in rows which also allows them to be used separately.*

**Designed by Group Four  
Design Protected**
