FURNITURE

# LOUNGE SEATING

*Stable lounge seating becomes "Woody" with the addition of laminated maple arm caps - adding the comfort of a warm wood surface and a degree of sophistication to a seating system that already has a full range of features to make it suitable for lounge and reception areas, particularly in healthcare settings.*

*Woody is available as a single chair, a two-seat settee or a three-seat sofa as well as continuous seating. Complementary benches and occasional tables are also available. The arm cap can also have a plastic laminate top surface.*

**Designed by Group Four
